DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 37-42, drawn to enable communication synchronization, classified in class 370, subclass 503.
 - II. Claims 21-36, 43-44, and 45-50, drawn to communication time slot adjustment, classified in class 370, subclass 337.

The above inventions are separate, distinct, and independent each from the other. Neither requires other for its implementation, they have separate statuses in the art as shown by their different classification. Each invention, if allowable, would be capable of supporting a separate patent. Therefore, restriction for examination purposes is proper.

2. A telephone call was made to Roger Greer, Reg. #26174 on February 3, 2205 on to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chirag G Shah whose telephone number is 571-272-3144. The examiner can normally be reached on M-F 6:45 to 4:15, 2nd Friday off.
